SUMMARY

Software engineer with 8+ years of experience building web applications end to end, from a global map product at Huawei to AI-powered CRM platforms. Strong in Vue.js, React, TypeScript and Go, with a focus on performance, reliability and well-tested code. Works fluently with AI coding tools to ship quality code faster. Used to remote, cross-border teams. Professional English, and keen to relocate and take on new challenges.

EXPERIENCE

Fast Track — Malta (On-site) Feb 2024 – Present
Software Engineer (Full-Stack)

- Build and enhance user-facing features for AI-powered CRM platforms in Vue.js and TypeScript, and develop backend services in Go.
- Rely on AI coding assistants throughout the workflow to deliver well-tested features quickly, while keeping review and quality standards high.
- Work with support teams to investigate and resolve production incidents.
- Identify and implement optimizations that improve performance, reliability and customer experience.

Stack: Vue.js, TypeScript, Go, Vitest, SCSS, Git, AI-assisted development

GoArt Metaverse — Istanbul (Remote) Jan 2023 – Dec 2023
Frontend Developer

- Built web3 products for a metaverse and AR platform with 100K+ users, including a raffle system for NFT giveaways and a land NFT marketplace.
- Developed interactive 3D experiences with three.js.

Stack: React.js, Next.js, JavaScript, three.js, Web3, Azure, SCSS, Git

Huawei — Istanbul (Remote) Jun 2021 – Jan 2023
Frontend Developer

- Developed several tools for Petal Maps, Huawei's global mapping product with 20M+ monthly active users, working in a small team.
- Won the company's **Future Star Award** (2021).

Stack: Vue.js, TypeScript, JavaScript, React.js, LESS, Jest, Cypress, JIRA, Git

Firmasoft & Datapare — Istanbul Jun 2018 – May 2021
Junior Full-Stack / Frontend Developer (part-time during studies)

- Built websites and CMSs for clients at Firmasoft, and learned web development in an agile startup team at Datapare.

Stack: PHP, MySQL, JavaScript, jQuery, Vue.js, HTML/CSS, JIRA

SKILLS

Frontend	Vue.js, React, Next.js, TypeScript, JavaScript, HTML, CSS/SCSS
Testing	Vitest, Jest, Cypress
Backend	Go, Node.js, PHP, MySQL
Tools	AI-assisted development, Git/GitHub, JIRA, Azure, three.js, Web3

EDUCATION

B.Sc. Mathematics Engineering — Istanbul Technical University 2016 – 2021

LANGUAGES

English: Professional working proficiency · **Turkish:** Native
